

Adding a Combo Box Control

Step 1

Create table of data

House	Price
32 Foxhal road	£48,000.00
121 Green Park Road	£29,000.00
7 Wood Grove	£68,000.00
68 Park Road	£129,995.00
7 Tye Lane	£76,000.00
95 Fredrick Close	£99,995.00

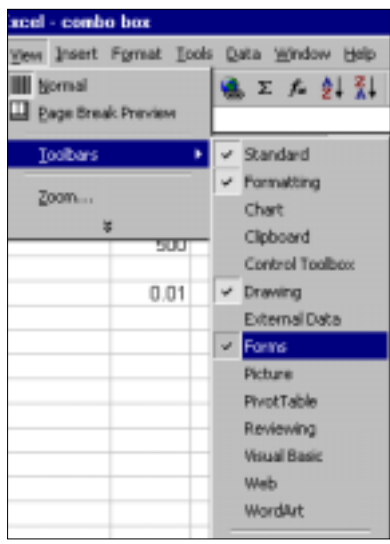

Step 2

2a. Highlight the whole table and on the **Insert** menu select **Name, Create**.

Step 3

3a. Make sure you have the **forms tool bar** displayed, if it is not then select **form** from the list.

3b. This is the **Forms** tool bar

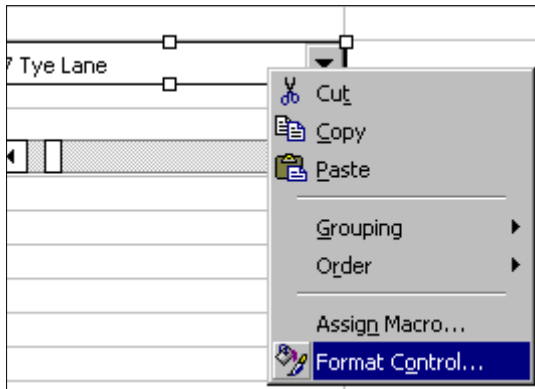

3c. Click on the **combo box icon** & drag the **outline** of a cell.

Step 4

Now **right click** on the cell you have drawn around. You will see this, highlight **format control**.

Step 5

This box should appear, input the correct details. In this example, the **input range** is the **name** of the **table. (House)** The **cell link** will be whichever cell you wish the details to appear in. Click **OK**.

Step 6

Press **Escape** to deselect the combo box. Now click the **arrow** next to the box and you will see the list you created.
