

Animating objects in PowerPoint

- 1) **Select** the object you want to animate.
- 2) Click on **Slide Show**.
- 3) Highlight **Preset Animation**.
- 4) Select the effect you want.
- 5) Repeat for other objects.
- 6) Preview your show by selecting **Slide Show** then **Animation Preview** and you will see a small box appear with a preview of your show.

Note: The order in which you select your objects, will be the order in which they are animated.

To view your presentation go to **Slide show** and select **View Show**.

To see each object appear you must click on the left mouse button.
